C = 2 light (background) -  
 pressed in half, lengthwise

D = 1 dark - pressed diagonally

Bias Strip 1 3/4" x 32"

Grosgrain Ribbon 1/4" x 8"

## ASSEMBLY OF NAME TAG HOLDER

1. Place light fabric on flat surface with right side up. Fold and press 4, 2" dark squares diagonally and baste in place in upper section of holder to form cardholder. (Lower edge of bottom triangles should be placed 3" from top of holder as shown in sketch.) Using approximately 5" of binding fabric, secure bottom triangles by placing binding along bottom edges of triangles and stitching along designated line. Turn under binding and blind stitch in place.
2. Fold and press the 4 1/4" dark square diagonally and place at bottom of holder, matching points. (This is the main part of the basket.)
3. Next, fold and press the 4 1/4" x 2" light strips in half lengthwise and place along the angled edges at bottom of holder as shown in sketch. Also, fold and press the 2" light square diagonally and place at bottom of holder, matching points.
4. For base of basket fold and press 2, 2" dark squares in quarters. Place the resulting small squares at bottom of main part of basket, tucking in the lower edges behind the bottom triangle. Align as shown in sketch and tack in place.
5. For basket handle align as shown in sketch and tack in place at top and tuck handles under other fabric layers.
6. Baste all of the fabric layers used in constructing the basket in place.
7. Assemble backing, flannel and front and baste. Add binding. To wear the name tag holder, attach ribbons of desired length to top corners of holder and tie around your neck OR use a large safety pin to secure to clothing.
