

April: Cathedral Windows

Due: May meeting
18 in Unfinished

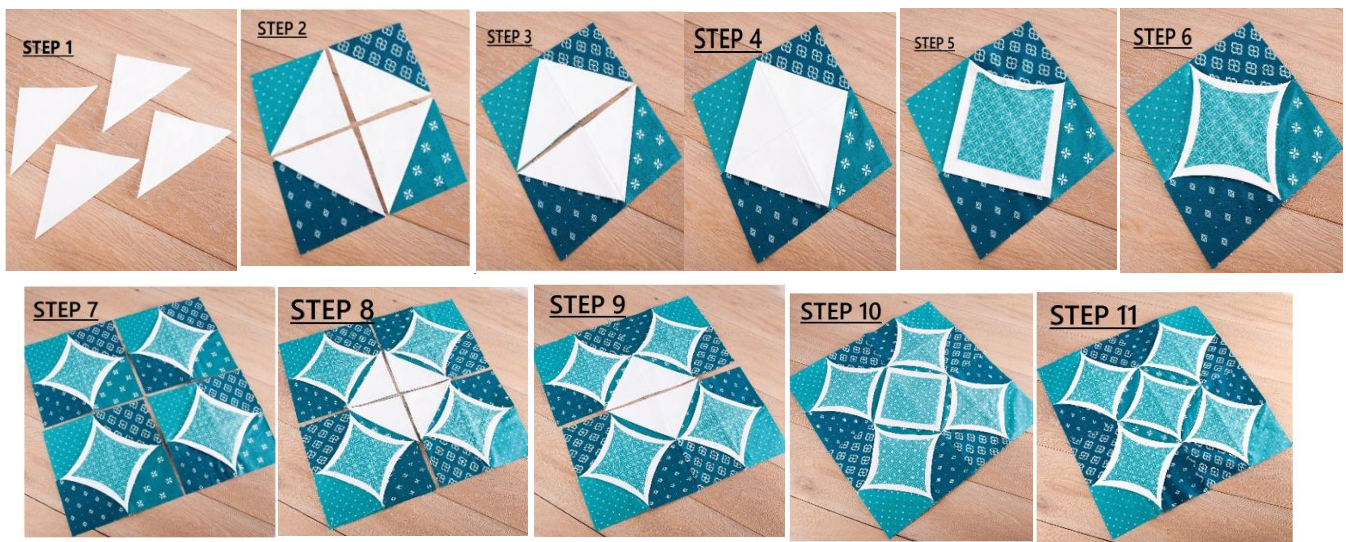

Materials

Colored/Patterned Squares **Use whatever colors you would like!	21 x 5" blue squares of fabric. I've used a fat quarter pack, so I have 4 of four of the designs and 5 of the other.
White	20 x 5" white squares of fabric

Instructions

Use 1/4in seam allowance unless stated otherwise

1. Fold 4 white squares in half diagonally with **wrong** sides together and press.
2. Arrange 4 patterned squares in two rows of 2. Place the plain triangles over the inside corners of each patterned square with raw edges lined.
3. Sew the top two squares right sides together with the two white triangles sandwiched in the middle. Press the seams OPEN. Repeat with the bottom two squares.
4. Sew these two strips right sides together and press the seam open.
5. Place the final blue square centrally over the white triangles. Fold the edges of the white square over the raw edges of the central blue square and pin in place. Make sure to slightly stretch the white fabric over the blue enough to cover the raw edges of the square.
6. Sew in place as close to the edge of the white fold as possible.
7. Repeat these steps three more times with the other squares to create 4 'window' blocks.
8. Arrange the window blocks into one large square. Press the final 4 white squares into triangles and place them in the centre of the square, lining up raw edges as before.
9. Sew the top two blocks right sides together then the bottom two. Press the seams open.
10. Sew the two strips right sides together and press the seams open. Lay the final blue square over the centre of the white triangles.
11. Repeat steps 5 and 6 with the centre of the block.

Special Note: These directions were taken from whatkimberleymakes.com
Special thanks to Kimberley Hind for letting us use the pattern.
